

## Russian Mineralogical Society

a public scientific organization uniting specialists and scientific groups working in the field of mineralogy and adjacent sciences

**MinSoc.ru**

- 25 branches in all main scientific centers of Russia
- world-wide membership (900+ regular members)
- more than 40 scientific conferences per year
- scientific library (more than 80 000 records)
- peer-reviewed journal «Zapiski RMO» (ISSN 0869-6055)
- best papers are published in `Geology of Ore Deposits` special issues in English

### **RMS periodically launches open competitions:**

- award calls for outstanding scientific publications, presentations, and monographs
- photo contests for scientific photographers (professionals and amateurs)

### **Web services at MinSoc.ru:**

- professional news → **you can add your own information!**
- announces and circulars of scientific conferences (>100)
- managing of a scientific conference (registration of participants, upload and publishing of abstracts)
- e-prints database: abstracts of conferences (>1100)
- «Zapiski RMO» contents (>2200 abstracts, >350 full papers\*)
- new books and e-prints
- bilingual interface (English / Russian)
- **free** registration and subscription for news alerting services

\* access for registered RMS members only

## RMS DPI code

Electronic publications of the RMS are supplied by unique codes providing the direct access to every article, conference abstract or presentation.

The individual **RMS DPI** (Russian Mineralogical Society Digital Publication Identifier) code is indicated within the header of every abstract of a conference managed by the web-based system **MinSoc.ru**. To access fulltext materials you need only print this code in the RMS web-address, e.g.:

<http://www.minsoc.ru/2006-1-57-1>

All publications of conferences managed by **MinSoc.ru** form an integrated and renewed electronic fulltext database (free access, registration is not necessary).

The database of RMS e-prints is equal to global proceedings of Russian conferences in mineralogy, crystallography, petrology, geochemistry and economic geology.

The RMS invites scientific institutions and conference organizers for collaboration and provides the administrative access to the website **MinSoc.ru** for members of Organizing Committees.
